

ALUWANI Collective Investment Schemes Disclosures

Collective Investment Schemes (CIS) in securities are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS are traded at ruling prices and can engage in borrowing and scrip lending. Momentum Collective Investments (RF) (Pty) Ltd (the manager) may borrow up to 10% of the market value of a portfolio to bridge insufficient liquidity. Unit trust prices are calculated on a net asset value basis, which is the total value of all assets in the portfolio including any income accruals and less any permissible deductions (brokerage, UST, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio, divided by the number of units in issue. A schedule of fees and charges and maximum commissions is available on request from the Manager). Commission and incentives may be paid and if so, would be included in the overall costs. Forward pricing is used. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down.

Different classes of participatory interests apply to certain portfolios, which are subject to different fees and charges. The Performance Fee Frequently Asked Questions document is available on the website (www.momentum.co.za/collectiveinvestments). The following transaction cut-off times apply: for all ALUWANI CIS branded portfolios is 14:00 on the pricing date. The following portfolio valuation times apply: All ALUWANI CIS branded portfolios is 15:00. The Total Expense Ratio (TER) is the percentage of the net asset value of the class of the Financial Product incurred as expenses relating to the administration of the Financial Product. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. A current TER may not necessarily be an accurate indication of future TER's. The disclosed TER is shown as an annual percentage based on data for the financial year-end to 30 June 2017. Cost ratios are calculated using historical actual and/or estimated data and are provided solely as an indication/guide as to the annual expenses/costs that could be incurred. These ratios do not represent any current/actual charges or fees.

Foreign securities within portfolios may have additional material risks, depending on the specific risks affecting that country, such as: potential constraints on liquidity and the repatriation of funds; macroeconomic risks; political risks; foreign exchange risks; tax risks; settlement risks; and potential limitations on the availability of market information. Fluctuations or movements in exchange rates may cause the value of underlying international investments to go up or down. Investors are reminded that an investment in a currency other than their own may expose them to a foreign exchange risk.

The terms and conditions as well as the minimum disclosure document (MDD) for each portfolio are available on the website (www.momentum.co.za/collectiveinvestments). Associates of

the manager may be invested within certain portfolios and the details thereof are available from the manager.
